DEFECTIVE TITLE HAS CAUSED TROUBLE SITUATION AT SOUR LAKE A

Guffey Company Will Suspend Operations at Sour Lake Until Matter Is Settled.

Beaument, Texas, June 29 .- A rumor that the Treadway well, situated on block 26 of the Iowa Colony, had come in was circulated on the streets today, but there was no ground for it. The drill is showfeet, but this is no infallible clew as to what will be found at a depth of 1000 feet, since the best indications at the former depth have been known to fail.

the well and has already reached the rock which was uncovered before the said ran little well and stoped operations. Having been unable to half the water out as fast as it ran in, Mr. Paulhamus has decided to drill into this rock and set his casing in it before he makes another attempt to ball the well. Drilling in this rock is rather difficult, but Mr. Paulhamus cancets to drill through it within three or four days and have developments of some and. The developments in this well are swalted with runch interest, for if the well should prove to be a producer it would not be to be a producer it would be set to be a producer it would be set to be a producer in which the some what the control of the well are swalted with runch interest.

prosperts for surcess. Concerning his plants be entertoday: "White I am interested in property on Spindle Tep, I would be see a profit oil field hope, and to this and I want the oil should be struck by a well will strike of in a well will strike of in the and since a big neld will be supply of all

Besville Oil Notes. Beeville, Texas, June 29 .- One hundred and fifty feet of ten-inch cashus how been gived Tuesday and drilling will begin about sunk in the Beeville artesian well and the strill is now going down on a Top feet stretch that will be ensed with eight-inch easing. This is the largest hole ever sunk

in this part of the State, and if water or oil is obtained it will be one of the finest wells in the State.

A gentleman from San Diego passed through Beeville yesterday with a bottle of oil taken from the oil well at Piedras Pinias, twelve miles from San Diego, on the Mexican National railroad. The oil is a fifte intricant and people who have seen both any it is of a finer quality than the Besumont oil.

SALES OF OIL STOCKS.
